

We've got you covered on training & education.

When changes occur that impact the workplace, you can count on the Michigan Chamber to provide education and training you and your employees need in the areas of human resources, tax policy, safety, management, and other skill-building.

In-Person Training

Seminars

When an issue is complicated or comprehensive, these half- or full-day programs deliver a deep dive. You learn from experts how an issue impacts your workplace and how to effectively respond.

Contract Training

Our quality programming can be tailored to your needs and brought right into your workplace so you can train a higher number of employees, saving you valuable staff time and money.

Online Training

Webinars

Sometimes a focused look at one issue will provide you all the information you need to know. We drill down to the meat of the matter so you can immediately apply the knowledge in your workplace.

Online Courses

These skill-building courses in career training, computer programs, accounting principles, and other business topics, allow employees to work at their own pace, anytime, anywhere.
